

Goodbye Summer, and hello Autumn,

Welcome to the next season the leaves are changing, the youth have returned to school and now is the time to work and get the youth active in all we do, we had Patriot's Day on September 11th a good time to have the youth help whether giving out buddy poppies, or even helping to give the first responders in your community baked goods or even just thanking them for all they do when they go out for a call.

The time is getting closer for the Marie Klugow Scholarship now is a good time to get it into the High Schools in your area to get the Seniors interested in pursuing a nursing career.

Patriotic Art is another to get them interested now is the time to get them out to the schools, so that the student will have time to not only design but also complete their entries before the march deadline.

I have been getting reports online and I can't wait to see what you will do within Youth Activities, coming up is Veteran's Day have Youth help pass out buddy Poppies or even help set out flags or even help with a flag retiring ceremony.

Grave Beautification: I know this is a big new project but I know this project will be perfect with the Youth, as you are cleaning the headstones finding out about the Veteran and giving the Youth a chance to learn about this Veteran and what they did in life before they went off to war and before they left this Earth this is not just cleaning its also History, by showing this youth what there is to know about this Veteran this will excite them to want to learn more about the Veteran they help when cleaning the headstones.

I hope all will have an amazing autumn and an amazing time as this year progresses.
